

Annual Pedagogical Plan

PLAY

Physical activity -

It helps student in physical health and better academic performance

Art / Craft –

It develops fine motor skills, helps in strengthen muscles and improve their control

Dance – Awakens new perceptions, enhances skills, observation and concentration. Which helps students in all of their subjects.

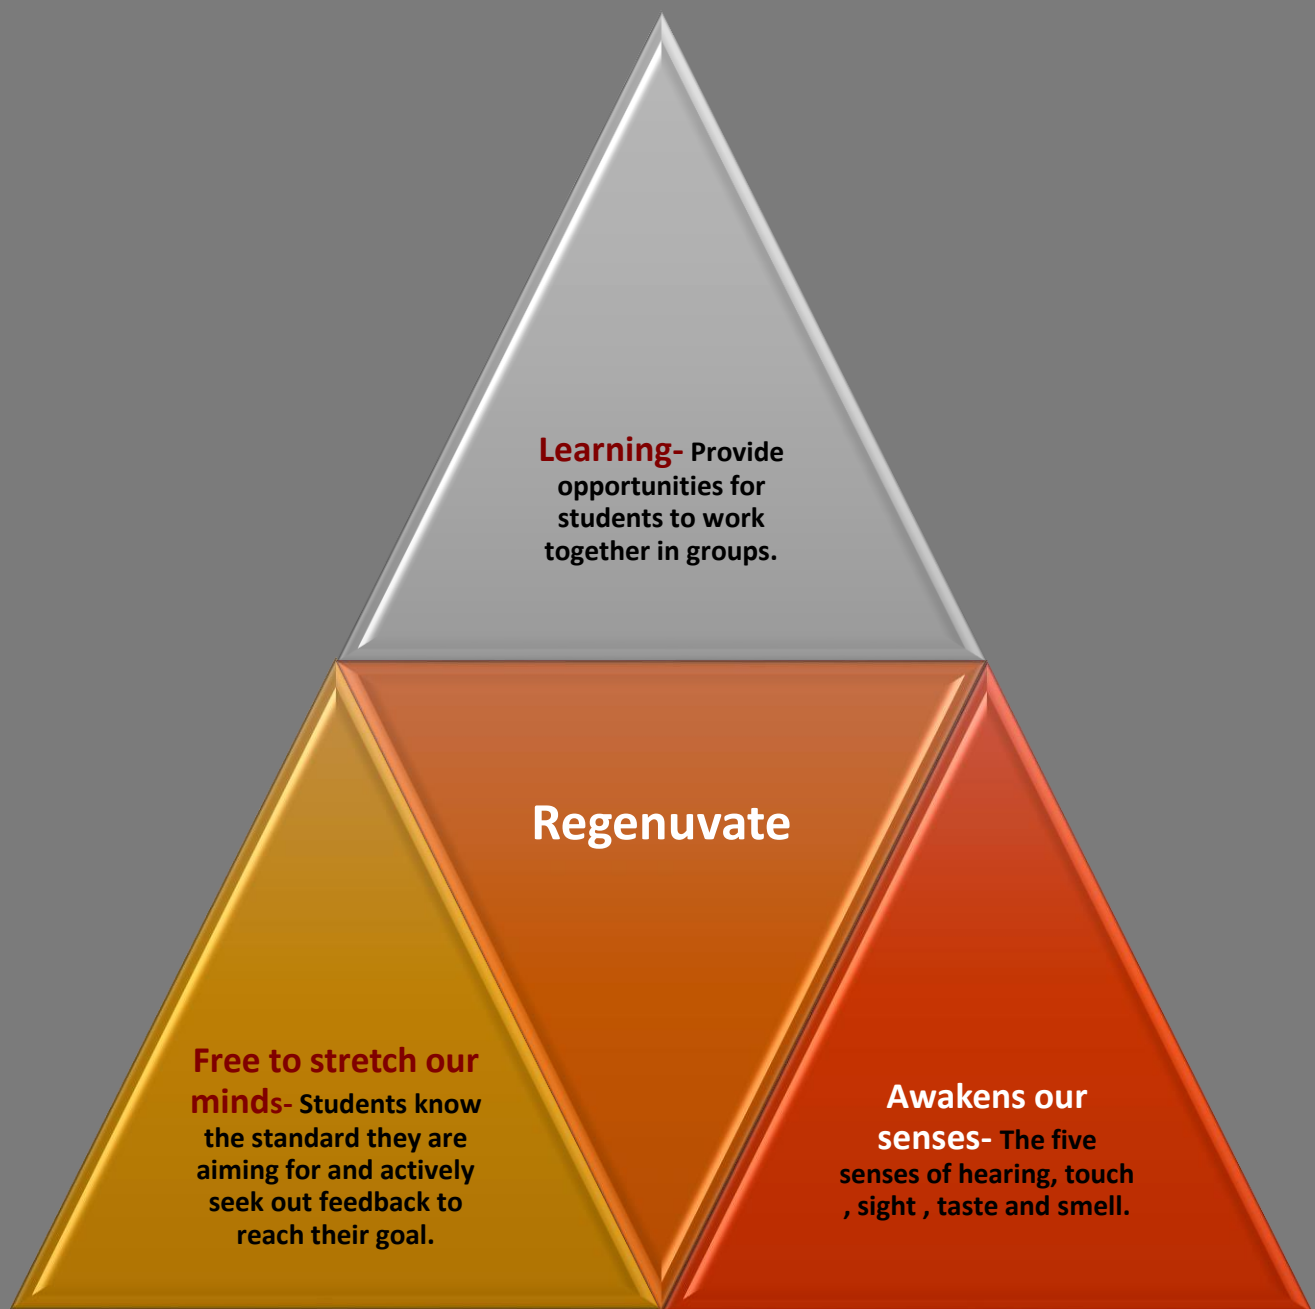

Music – Soothing and relaxing helps students to beat stress or anxiety while studying

* Activity-oriented learning is a major challenge which will target different groups.

Important for all age group.

IGNITE

```
graph TD; A[IGNITE] --> B[Choice of learning-  
It helps students in self-differentiate their learning,  
interest and choose their line.]; B --> C[Scholastic  
1. Engineering  
2. Biological and medical science

4. Vocational career

Non-Scholastic

1. Animation
2. Web designing
3. Journalism and mass communication
4. UX designer
5. Advertising & promotions manager
6. Sports, music, art&craft

The Process of bringing it into Existence

Play – We give our student the freedom to start the day with some physical activity. Which help them in healthy growth, movement skills and to increase mental wellbeing.

Regenuvate – It restores the energy and prepare their body to do multitasking.

Mentoring- Mentoring plays an important role in our Pedagogical plan “PRIMEE”. Mentors share their knowledge, Skills and experience to assist others.
